BSERI Course Catalog — ISO Standards & BSERI Signature Courses

Month/Year: August 2025
Tagline: Beyond theory to practice — build systems that run, controls that hold, and evidence that wins audits.

Section A — Overview Matrix (quick compare)

A.1 ISO Standards Courses

Course Code	Course Title	Standard/ Framework	Format	Type	Level	Prerequisites	Fees (INR)	Location/ Region
QMS-P	Quality Management Systems Practitioner	ISO 9001:2015	Live Online / Classroom (Self-paced add-on)	Practitioner	Intermediate	None	N/A	Global (Online) N/A (Classroom)
EMS-P	Environmental Management Systems Practitioner	ISO 14001:2015	Live Online / Classroom (Self-paced add-on)	Practitioner	Intermediate	None	N/A	Global (Online) N/A (Classroom)

Course Code	Course Title	Standard/ Framework	Format	Type	Level	Prerequisites	Fees (INR)	Location/ Region
OHS-P	Occupational Health & Safety Practitioner	ISO 45001:2018	Live Online / Classroom (Self-paced add-on)	Practitioner	Intermediate	None	N/A	Global (Online) / N/A (Classroom)
BCMS-P	Business Continuity Management Systems Practitioner	ISO 22301:2019	Live Online / Classroom (Self-paced add-on)	Practitioner	Intermediate	None	N/A	Global (Online) / N/A (Classroom)
ISMS-P	Information Security Management Systems Practitioner	ISO/IEC 27001:2022	Live Online / Classroom (Self-paced add-on)	Practitioner	Intermediate	None	N/A	Global (Online) / N/A (Classroom)
AIMS-P	AI Management Systems Practitioner	ISO/IEC 42001:2023	Live Online / Classroom (Self-paced add-on)	Practitioner	Intermediate	None	N/A	Global (Online) / N/A (Classroom)
FSMS-P	Food Safety Management Systems Practitioner	ISO 22000:2018	Live Online / Classroom (Self-paced add-on)	Practitioner	Intermediate	None	N/A	Global (Online) / N/A (Classroom)

A.2 BSERI Signature Courses

Course Code	Course Title	Standard/ Framework	Format	Type	Level	Prerequisites	Fees (INR)	Location/ Region
MSF	Management Systems Foundation Course	Signature	Live Online / Classroom (Self-paced add-on)	Foundation	Beginner	None	N/A	Global (Online) / N/A (Classroom)

Course Code	Course Title	Standard/ Framework	Format	Type	Level	Prerequisites	Fees (INR)	Location/ Region
MSP	Management Systems Practitioner Course	Signature	Live Online / Classroom (Self-paced add-on)	Practitioner Accelerator	Intermediate	None	N/A	Global (Online) / N/A (Classroom
ISMS-M	Information Security for Managers	Signature	Live Online / Classroom (Self-paced add-on)	Manager	Intermediate	None	N/A	Global (Online) / N/A (Classroom
AI-M	AI for Managers	Signature	Live Online / Classroom (Self-paced add-on)	Manager	Intermediate	None	N/A	Global (Online) / N/A (Classroom

Section B — One-Page Course Cards

Subject to change based on cohort needs.

> Headings standard (applied to all cards): **At a glance • Who it's for • Capabilities you gain • What you'll build (toolkit) • Format & time • Assessment & certificate • Impact at work • Next cohort & enroll**

QMS-P — Quality Management Systems Practitioner (ISO 9001:2015)

Soundbite: *Evidence wins audits.* **At a glance:** Build a quality system that makes work consistent, fixes problems fast, and **passes audits with proof**.

Who it's for
- QA/quality managers and process owners
- New QMS coordinators or team leads
- Founders responding to customer RFQs
- Internal auditors who want a practical playbook

Beginner note: No prior ISO experience? You're fine — we start from basics and build up.

Capabilities you gain
- Map key processes and set simple, clear procedures
- Run internal audits that lead to real fixes
- Track a small set of KPIs to spot trends
- Close nonconformities with a clean **CAPA loop**
- Prepare for audits with organized, easy-to-find evidence

Real example: Supplier audit tomorrow — show a clean CAPA trail for a recurring defect in minutes.

What you'll build (toolkit)
- Process map and SOP pack
- Internal audit plan & checklist
- CAPA tracker with follow-up dates
- KPI dashboard starter
- Management Review (MR) slide deck
- Evidence binder index

Format & time
- Live online/Classroom (self-practice supported)
- 40h standard / 32h accelerated

Assessment & certificate
- Short quiz + submit your toolkit
- BSERI certificate with online verification

Faculty: Govind Srinivasan; Manjula Subramanian

Impact at work
- Simpler audit conversations
- Fewer repeat issues; faster closures
- A team that knows "what good looks like"

Next cohort & enroll: Rolling monthly • **Email:** enroll@bseri.org • **Short URL:** N/A • **QR (alt text):** Registration QR for QMS-P

EMS-P — Environmental Management Systems Practitioner (ISO 14001:2015)

Soundbite: *Control today, comply tomorrow.* **At a glance:** Reduce environmental impact you can **measure**, and show compliance with **clear evidence**.

Who it's for
- EHS & sustainability managers
- Plant/operations heads owning energy, water, waste
- Procurement/facility teams adding environmental checks

Beginner note: No prior ISO experience? You're fine — we start with the basics.

Capabilities you gain
- List aspects/impacts and set priorities
- Build a **legal & other requirements** register you keep current
- Operate controls for waste, emissions, energy, water
- Plan drills and convert lessons into actions
- Run internal audits and a focused Management Review

Real example: Paint booth VOC exceedance — capture, control, and prove compliance with records.

What you'll build (toolkit)
- Aspect–Impact Register
- Legal Register & **Compliance Calendar**
- Operational control sheets & emergency drill script
- KPI dashboard starter (waste, energy, water, compliance checks)
- Internal audit checklist & MR deck

Format & time
- Live online/Classroom (self-practice supported)
- 40h / 32h

Assessment & certificate
- Quiz + submit your toolkit
- BSERI certificate with online verification

Faculty: Govind Srinivasan; Manjula Subramanian

Impact at work
- Less waste and rework, lower risk
- Compliance checks on a clear schedule
- Audit-ready records without scramble

Next cohort & enroll: Rolling monthly • **Email:** enroll@bseri.org • **Short URL:** N/A • **QR (alt text):** Registration QR for EMS-P

OHS-P — Occupational Health & Safety Practitioner (ISO 45001:2018)

Soundbite: *Make work safe. Prove it daily.* **At a glance:** Keep people safe with simple controls everyone follows — and show it with clear records.

Who it's for
- EHS/operations leaders and safety coordinators
- Supervisors responsible for permits and contractor work
- Teams fixing repeat safety issues

Beginner note: New to ISO or safety systems? You're fine — we build from first principles.

Capabilities you gain
- Identify job hazards and choose the right controls
- Run **PTW (Permit to Work)** and **LOTO (Lockout/Tagout)** the practical way
- Improve guarding, working-at-height, and confined-space safety
- Investigate incidents and close actions that stick
- Track safety KPIs and run a strong MR

Real example: Confined-space maintenance — permit, gas checks, rescue plan, and records that stand up in audits.

What you'll build (toolkit)
- HIRA/JSA templates
- PTW suite (hot work, confined space, WAH)
- LOTO specification & checks
- Incident investigation & **CAPA** forms
- Safety KPI dashboard starter
- Emergency drill script

Format & time
- Live online/Classroom (self-practice supported)
- 40h / 32h

Assessment & certificate
- Quiz + submit your toolkit
- BSERI certificate with online verification

Faculty: Govind Srinivasan; Manjula Subramanian

Impact at work
- Fewer injuries and near misses
- Faster incident closures
- Confidence during audits and customer visits

Next cohort & enroll: Rolling monthly • **Email:** enroll@bseri.org • **Short URL:** N/A • **QR (alt text):** Registration QR for OHS-P

BCMS-P — Business Continuity Management Systems Practitioner (ISO 22301:2019)

Soundbite: *Processes before promises.* **At a glance:** Protect critical work and **recover fast** when things go wrong — with plans you've tested.

Who it's for
- Business continuity / resilience leads

- IT/Platform/SRE teams who own backups and DR
- Operations leaders who must keep services running

Beginner note: No prior ISO experience needed — we start with real scenarios and build your plan.

Capabilities you gain
- Identify critical activities and set **RTO (Recovery Time Objective)/RPO (Recovery Point Objective)** targets
- Map dependencies and find single points of failure
- Choose continuity strategies that fit your business
- Run crisis calls and keep decision logs
- Plan and run exercises; turn results into actions

Real example: Primary data center outage — restore core app within RTO with tested runbooks and clean evidence.

What you'll build (toolkit)
- BIA workbook with priorities
- RTO/RPO matrix & dependency map
- Crisis plan & comms pack
- BCP/ITDR runbooks
- Exercise scripts & results log
- KPI dashboard starter

Format & time
- Live online/Classroom (self-practice supported)
- 40h / 32h

Assessment & certificate
- Quiz + submit your toolkit
- BSERI certificate with online verification

Faculty: Govind Srinivasan; Manjula Subramanian

Impact at work
- Quicker, calmer response to outages
- Measurable recovery vs targets
- Audit-ready evidence at your fingertips

Next cohort & enroll: Rolling monthly • **Email:** enroll@bseri.org • **Short URL:** N/A • **QR (alt text):** Registration QR for BCMS-P

ISMS-P — Information Security Management Systems Practitioner (ISO/IEC 27001:2022)

Soundbite: *Assume breach. Prove control.* **At a glance:** Reduce security risk with the **right controls**, and prove they work when asked.

Who it's for
- CISOs, security leads, DevOps/SRE
- Compliance/risk managers aligning with customers and audits
- Teams new to ISO 27001 who need a practical start

Beginner note: New to ISO 27001? You're fine — we explain terms as we go.

Capabilities you gain
- Find your top risks and agree on treatment plans
- Build a **Statement of Applicability (SoA)** that makes sense
- Improve access control, backups, logging, and patching
- Prepare for incidents and practice the response
- Track a small set of security KPIs for management

Real example: Lost laptop with client data — revoke access, record the incident, show proof of controls.

What you'll build (toolkit)
- Risk register & treatment plan
- SoA with clear justifications
- Access review & exception logs
- Backup/restore test record & logging checklist
- Patch policy & baseline hardening list
- Incident runbook & decision log

Format & time
- Live online/Classroom (self-practice supported)
- 40h / 32h

Assessment & certificate
- Quiz + submit your toolkit
- BSERI certificate with online verification

Faculty: Manjula Subramanian; Govind Srinivasan

Impact at work
- Fewer surprises in audits and customer reviews
- Tighter day-to-day control over access and changes
- Faster, clearer response when incidents happen

Next cohort & enroll: Rolling monthly · **Email:** enroll@bseri.org · **Short URL:** N/A · **QR (alt text):** Registration QR for ISMS-P

AIMS-P — AI Management Systems Practitioner (ISO/IEC 42001:2023)

Soundbite: *Risk in, evidence out.* **At a glance:** Use AI **responsibly and safely** — set guardrails, check results, and keep records you can trust.

Who it's for
- AI/data/engineering leaders shipping AI features
- Product owners adding AI to workflows
- Risk/compliance teams needing clear oversight

Beginner note: New to AI standards? You're fine — we focus on practical guardrails and records.

Capabilities you gain
- Decide when and how to use AI with a simple risk method
- Complete an **AI System Impact Assessment (AISIA)**
- Set practical guardrails for prompts, data, and model changes
- Test models for bias, robustness, and safety
- Monitor live use and handle incidents

Real example: AI assistant recommends a wrong policy — add guardrails, review logs, and show what changed.

What you'll build (toolkit)
- Risk register & AISIA examples
- Annex-A control matrix with owners
- Data quality & provenance plan
- MLOps release/rollback checklist
- Red-team/evaluation report
- KPI dashboard starter

Format & time
- Live online/Classroom (self-practice supported)
- 40h / 32h

Assessment & certificate
- Quiz + submit your toolkit
- BSERI certificate with online verification

Faculty: Manjula Subramanian; Govind Srinivasan

Impact at work
- Safer AI launches with fewer surprises
- Clear approvals and paper trail
- Confident conversations with customers and auditors

FSMS-P — Food Safety Management Systems Practitioner (ISO 22000:2018)

Soundbite: *Prevent it. Control it. Prove it.* **At a glance:** Keep food safe every day — **spot hazards, set simple controls, and show proof** with clean records.

Who it's for
- QA/technical/plant heads
- New FSMS or HACCP owners
- Supplier quality and packaging teams

Beginner note: New to FSMS/HACCP? You're fine — we build from the ground up.

Capabilities you gain
- List hazards and choose the right controls
- Decide which steps need close checks (critical steps)
- Run allergen control and label reviews that prevent mistakes
- Plan cleaning & **environmental monitoring (EM)** that actually works
- Trace lots quickly and practice a recall in under 4 hours

Real example: Undeclared allergen risk on a mixed-nut line — prevent cross-contact and prove label control.

What you'll build (toolkit)
- HACCP plan (clear decision trail)
- PRP matrix for your site
- Allergen matrix & label check sheet
- SSOP/CIP schedule & EM plan with swab sites
- Traceability map & mock recall script
- KPI dashboard starter

Format & time
- Live online/Classroom (self-practice supported)
- 40h / 32h

Assessment & certificate
- Quiz + submit your toolkit
- BSERI certificate with online verification

Faculty: Govind Srinivasan; Manjula Subramanian

Impact at work
- Fewer complaints and safer launches

- Faster, calmer audit days
- Clear roles and routines on the floor

Next cohort & enroll: Rolling monthly • **Email:** enroll@bseri.org • **Short URL:** N/A • **QR (alt text):** Registration QR for FSMS-P

BSERI Signature Courses — One-Page Course Cards

MSF — Management Systems Foundation Course (Signature)

Soundbite: *Start right, scale right.* **At a glance:** A simple, practical start to management systems — what they are, how they help, and how to keep useful records.

Who it's for
- New managers and coordinators
- Team leads stepping into quality/safety/environment roles
- Anyone new to ISO who wants a clear, no-jargon start

Beginner note: No prior ISO experience? You're fine — we explain everything in plain English.

Capabilities you gain
- Understand the core parts common to ISO systems
- Read a standard without getting stuck in jargon
- Set up basic procedures and records that people follow
- Join audit conversations with confidence

Real example: New site onboarding — set simple SOPs and records in week one.

What you'll build (toolkit)
- Simple process map
- Basic procedure/SOP template set
- Record & evidence checklist
- Internal audit checklist starter
- Personal study plan

Format & time
- Live online/Classroom (self-practice supported)
- 40h / 32h

Assessment & certificate
- Quiz + quick artifact submission
- BSERI certificate with online verification

Faculty: Govind Srinivasan; Manjula Subramanian

Impact at work
- Shared language across teams
- Fewer misunderstandings about "what to do"
- Faster onboarding to ISO projects

Next cohort & enroll: Rolling monthly • **Email:** enroll@bseri.org • **Short URL:** N/A • **QR (alt text):** Registration QR for MSF

MSP — Management Systems Practitioner Course (Signature)

Soundbite: *Plan the work, prove the work.* **At a glance:** A cross-standard, hands-on accelerator — learn to roll out practical controls and keep evidence tight.

Who it's for
- Practitioners working across QMS/EMS/OHS/ISMS/BCMS
- Project leads who must hit timelines
- Internal consultants building toolkits for teams

Beginner note: New to implementation? You're fine — we build step-by-step.

Capabilities you gain
- Plan a rollout with milestones and owners
- Stand up controls, then verify they work
- Build a small KPI set that prompts action
- Run internal audits that lead to improvement

Real example: Multi-site rollout — standardize controls in 60 days and keep evidence tight.

What you'll build (toolkit)
- Rollout plan & RAID log
- Control checklists & evidence map
- KPI dashboard starter
- Internal audit kit
- Management Review cadence deck

Format & time
- Live online/Classroom (self-practice supported)
- 40h / 32h

Assessment & certificate
- Quiz + submit your practitioner toolkit
- BSERI certificate with online verification

Faculty: Govind Srinivasan; Manjula Subramanian

Impact at work
- Faster, cleaner implementations
- Evidence on hand for audits and customer reviews
- Less drift after go-live

Next cohort & enroll: Rolling monthly • **Email:** enroll@bseri.org • **Short URL:** N/A • **QR (alt text):** Registration QR for MSP

ISMS-M — Information Security for Managers (Signature)

Soundbite: *Decide with confidence.* **At a glance:** What leaders need to know to sponsor and steer ISO 27001 work — in clear, non-technical language.

Who it's for
- Business and IT managers
- Product owners handling customer/security asks
- Leaders preparing for audits and RFQs

Capabilities you gain
- Read the risk picture and approve treatment plans
- Understand the **SoA** and ask the right questions
- Set expectations for access, backups, patching, and incidents
- Hold teams accountable without micromanaging

Real example: Customer security questionnaire — respond with SoA-backed answers and win the deal.

What you'll build (toolkit)
- Manager's SoA briefing
- Risk acceptance playbook
- KPI & review checklist
- Audit conversation guide

Format & time
- Live online/Classroom
- 40h / 32h

Assessment & certificate
- Short quiz
- BSERI certificate with online verification

Faculty: Manjula Subramanian; Govind Srinivasan

Impact at work
- Clearer decisions and approvals
- Stronger customer confidence
- Fewer last-minute surprises

AI-M — AI for Managers (Signature)

Soundbite: *Govern AI by outcomes.* **At a glance:** A practical guide for leaders to use AI **responsibly** — pick the right use cases, set guardrails, and measure results.

Who it's for
- Product and operations leaders
- Founders and business owners
- Program managers rolling out AI

Capabilities you gain
- Decide when to use AI, and when not to
- Ask for an **AISIA** when risk is higher
- Set simple guardrails and success measures
- Review vendors with the right questions

Real example: Vendor LLM integration — run a quick risk review before go-live and capture approvals.

What you'll build (toolkit)
- AI use-case canvas
- Risk & approval checklist
- Vendor due-diligence list
- KPI & oversight review sheet

Format & time
- Live online/Classroom
- 40h / 32h

Assessment & certificate
- Short quiz
- BSERI certificate with online verification

Faculty: Manjula Subramanian; Govind Srinivasan

Impact at work
- Safer, clearer AI adoption
- Faster approvals with a paper trail
- Better conversations with customers and auditors

Next cohort & enroll: Rolling monthly • **Email:** enroll@bseri.org • **Short URL:** N/A • **QR (alt text):** Registration QR for AI-M
